

01/05/2005

JCB have introduced its own range of diesel engines into the marketplace. Aimed at mid range applications, the new engine has been specifically designed and developed for the off-highway market sector.

The new range of engines feature:

- Power ratings from 32.8kW to 90.4kW (32.8bhp to 121.0bhp).
- Low Noise: 89dBA @ 1 metre.
- High torque output at low engine speeds.
- Base engine and full powerpack specifications.
- EC Stage 2/EPA Tier 2 emissions compliant.
- EC Stage 3/EPA Tier 3 emissions compliant due 2007.

We are delighted to be able to announce that Turner Powersystems has been awarded the UK distributorship for this new exciting engine range. Turner Powersystems is a new business that has been created to represent JCB's Industrial Engine business from both a Product Sales and Product Support perspective. Turner Powersystems operates as a division of Mitchell Diesel Limited and is based in Sutton in Ashfield. As well as being able to offer a standard range of products Turner Powersystems specialises in offering:

- Tailored engine "Power Solutions" designed to individual customer requirements.
- "Value added" items such as instrument panels, exhausts systems and throttle controls.
