JCB DieselMax TCAE—Tier 3 Emissions Compliant

With the highly successful introduction of the JCB DieselMax engine range in 2005, JCB have pushed design boundaries further with the new JCB DieselMax TCAE engine. Designed to comply with the new Tier 3 Emissions legislation (for engines >74.0kw) introduced on 1st January 2007, the new range of 4 cylinder engines feature:-

- Power ratings from 97—120kW (gross intermittent @ 2200rpm)
- Common rail fuel injection
- Full authority engine electronics : J1939 standard
- Low noise : 89dBA @ 1 metre
- EC Stage 3/EPA Tier 3A emissions compliant
- Base engine & full powerpack (IPU) specifications available

Full engine specifications and pricing are available from Turner Powersystems upon request.
